**Re : Public health (childcare vaccination) and other legislation amendment bill 2015**

To the Health and Ambulance Services Committee,

It has been brought to my attention that once again a committee has been formed to assess an amendment to the aforementioned bill.

Why? Why is this even necessary?

A similar and coercive proposal was rejected by the LNP in 2013 in favour of an education program.

According to the Department of Health "Time out" poster dated January 6, 2014, both schools and childcare centres are empowered to exclude (if necessary) children from school / childcare if they are infected with any of the listed diseases, regardless of vaccination status.

To exclude children from childcare based purely on vaccination status is both ludicrous and discriminatory.

Please try and do the right thing; stop wasting your time, tax payers' money and stop trying to take away peoples freedom of choice.

A handwritten signature in black ink, appearing to be "Ian Billman".

Ian Billman
