HEALTH AND COMMUNITY  
SERVICES COMMITTEE

To whom it may concern

I oppose these amendments to the nature conservation act 1992 as I do not support the granting of private leases in national parks.

If the object is to increase revenue from them a better open is to increase paths and signage in national parks and only allow ecotourism facilities in private land adjacent to them.

Australia would be derided for allowing ecotourism developments in national parks because if they're in national parks they can't be classified as ecologically sound or appropriate.
