Hello,

I'm writing to voice my concern that the Queensland Parliamentary Committee is considering an amendment to allow areas of National Park to be leased to private interests for the establishment of "ecotourism" resorts. Currently, similar resorts are located near but outside the NP boundaries and it should continue that way. Queensland has preserved such a small percentage of natural areas, 5%, and is way behind other states.

These natural areas are for everyone's use and protection, not just a few favourites.

Thank you for considering these points.
