Subject: Use of National Parks for private tourist developments.

I am appalled to hear that the government is considering allowing tourist developments within National Park boundaries. There is little National Park land in Queensland already (less than other states) – tourist developments should NEVER be allowed within the Parks. These vital areas should be available to all, not just to those who can afford to pay private enterprises.

I run a small business close to a beautiful National Park and am amazed that any truly environmentally-friendly business would even consider setting up within the park itself.
