Subject: Re ecotourism in National Parks

To whom it may concern,

I would like to voice my concern regarding the leasing of land for Eco-Lodges in National Parks. Eco-Lodges inside a National Park would reduce the area available for preservation of the natural habitat. There would not be such a problem if the Eco-Lodge was just outside the boundary, although there would need to be strict guidelines for even this to occur. I don't believe we should be reducing the area of our National Parks in Qld any further.
