Subject: Public Health (Exclusion of Unvaccinated Children from Child Care) Amendment Bill 2013
Date: Sunday, 23 June 2013 2:02:58 PM

To all that have a the power to vote,

My name is Melissa Fitzsimon, I am a business owner on the Gold Coast and I live in Elanora. I have been living on the Gold Coast for more than 10 years and I have always had my own business or have been contracting. I am educated and well informed about the vaccination issue and i am deeply concerned about this amendment.

I have 2 beautiful, healthy, robust boys. One is in school and the other in Kindy/Day Care. We live a very healthy, happy life here and have never asked anything from our parliment members.

But, I am asking you today..... please vote against the Public Health (Exclusion of Unvaccinated Children from Child Care) Amendment Bill 2013.

I know the people that don't vaccinate their children. We are all extremely health conscious and well informed about the risks of vaccines and the danger to our childrens health.

My children have the strongest immune system out of all their friends (that are vaccinated). while these children are getting their tonsils out, suffering from ear infections and constantly using their medicare cards and health system, my children have not been to a doctor in 2 years, we have not used our medicare card in 2 years and are rarely sick! Actually i think we have been to the doctor twice in the past 6 years. I really believe that Vaccines hinder immune systems and it has become the norm to have a sick child.

I don't see why we should be discriminated against when we are saving the health system so much money!

Everybody should have the choice whether to vaccinate or not. And we should not be discriminated against with day care or school or any other service, when we work so hard to keep our families healthy.

Thank you for your time and i really hope you investigate this issue before you vote.

Melissa Fitzsimon
