Subject: Vaccination Laws
Date: Monday, 1 July 2013 10:20:56 AM

To Whom it May Concern,

I am writing to state my objection to the laws on vaccination that are about to be discussed in Parliament.

I do not agree with the conditions that on medical exemptions apply. It is imperative that the **Conscientious Objection** clause remain in the laws.

I am a Conscientious Objector to vaccination and I will not allow the government to make choices on the health of myself or my children.

It is my RIGHT to make these choices and I want my rights to be reflected in the laws of this state and country.

Until there is proof that vaccinations are safe and effective and will cause no harm to myself, my children or the community I live in, then you cannot allow these laws to impose on my rights as a citizen.

Yours faithfully,

Kathleen Kaandorp
