**Submission on Public Health (Exclusion of Unvaccinated Children from Child Care)
Amendment Bill 2013**

(Queensland).

Dear Sir/Madam,

There is no need to write something original to Queensland Health, because this exact same Bill has been passed, or in the process of being passed in NSW at this very time.

When the Federal government cannot get their agenda passed, the same laws are sometimes passed through the States, without the knowledge or approval of the people. This has happened with fluoride, genetic engineering, and is happening with forced vaccination, particularly when it can be done through schools, which are controlled by the States (but not for long if the Gonski plans go ahead).

I have been researching Vaccinations for 16 years and I petition you to reject this bill. This is a repugnant law and should have no part in our system of government. It removes the rights of parents and gives it to the State.

Around 80,000 parents have forfeited their financial reward and refused vaccination for their children, many who have had children killed or maimed by vaccines and ignored by mainstream media and pharmaceutical cartels, who have financial interests in the expansion and perpetuation of vaccines.

It is acknowledged that these parents who reject vaccination are from the more educated areas. Undoubtedly they have done their research. Moves to make vaccination compulsory in Australia will divide the nation and you will have more problems that you ever imagined if you give the State this authority over the God given rights of parents to decide what is good for their children.

Compulsory vaccines are child abuse and against the Commonwealth Constitution (Section 51 (xxiiiA) which forbids civil conscription of medical services, and is against the ethics and rules of both the Nuremberg Trials and the Helsinki Declaration. No proper tests have been done on the impact of multiple doses and doctors and health works should object to this Bill, which is an attack on their freedom to treat patients according

to their conscience and beliefs.

Forced medication and vaccination are abhorrent to our society and our system of government and to those who gave their lives for our freedom. Children belong to their parents, not the State.

Please do your own research.
