Subject: Public Health (Exclusion of Unvaccinated Children from Child Care) Amendment Bill 2013
Date: Friday, 5 July 2013 9:35:46 AM

To Whom it may concern,

I wish to object to the proposed bill to exclude unvaccinated children from childcare.

Parents who choose not to vaccinate will be discriminated against if this goes through.

I have never understood why people who have vaccinated their children fear having unvaccinated children around theirs. If these vaccines truly do work, what are they worried about? Their children should be protected & they'd have nothing to fear!

My 3 teenagers were somewhat vaccinated- i was naive & believed what the health 'professionals' told me and didnt educate myself. When i fell pregnant with my 4th child 7 years after the 3rd I did a lot of research and educated myself about immunisation & decided not to vaccinate at all. My nearly 7 year old is the healthiest out of them all.

I believe all parents should be educated by non-biased people about vaccination so that they make an informed decision.

kind regards,

Angel Love
