RE : Exclusion of unvaccinated children from childcare

Good morning,

I write to you with deep concern for the ramifications of the amendment, if passed (i.e. allowing a person in charge of a child care service the option to refuse to allow children who are not fully immunised to enrol in the facility or to participate in activities provided by said facility).

Why is this necessary?

This is unconstitutional (forced medication) – a medical procedure should not be forced upon anyone.

This removes freedom of choice – parents should be free to choose if their child is immunised / vaccinated.

This is a human rights violation.

Are you willing to address my concerns? I look forward to your response.

Regards,

**Ian Billman**
