Dear Sirs & Madams, Re the above Bill I wish to submit that it is sheer vandalism & denial of a long world wide tradition to diminish the fauna & flora conservation principles of our National Parks. Is this the return of the barbarians? The conservation of our fauna & flora has to be prioritised & strengthened not weakened as this Bill surely will. The 4.5% of the state that they cover is already significantly under-representative & inadequate when it comes to meeting national & international standards. This Bill will make us the laughing stock of the world. Reject the Bill!

Yours Sincerely  
John Morison
