Subject: A Submission to the Nature Conservation and Other Legislation Amendment Bill (No 2) 2013
Date: Thursday, 12 September 2013 5:26:40 PM

To Whom It May Concern

We wish to voice our concern and object to the Nature Conservation and Other Legislation amendment Bill (No 2) 2013.

Our grounds are that Nature Conservation is vital for the survival of the Human species as well as all Animal, Bird, Marine and Plant populations.

This fact has been recognised, researched and put into legislation by many dedicated Humans before us.

Our aim should be to strengthen and protect our conserved environment for all species to respect and enjoy with care for its and indeed their own survival. To intrude with the modern built environment, modern transport and other disruptions will only harm and change our precious Living environment. We would be ashamed
