RE: *Nature Conservation Act 1992*

I object to the following:

1. allowing commercial, cultural and recreational use of national parks and other public land if that land is currently designated a National Park.
2. reduction of red tape if that takes away proper accountability.
3. streamlining legislative processes if that takes away proper accountability.
4. Any amendments that will lessen the protection of wildlife & natural environment that is currently being protected by legislation.

yours faithfully

Lynne Porter
