To whom it may concern:

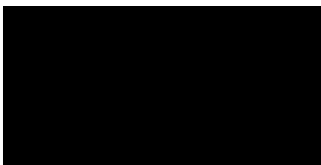

Sexually explicit outdoor advertising

I am an Australian citizen and resident of Queensland for the past 5 years. As a first time mother to be I would like to submit my support in only having G rated material in any outdoor advertising in Queensland. My reasons are set out below.

1. It is impossible for me to control the material my child will be looking at if it is advertised on a billboard or any other outdoor area.
2. I see it as my duty to instill family values into my child and would want to protect my child from any sexual material for as long as possible.
3. The message sent out to the public through some of these billboards who sexually exploit women do not show respect for the female body and I find it personally very offensive.
4. These companies have sufficient advertising opportunities other than to have it being displayed to the public.

Please do not hesitate to contact me should you require more information.

Kind regards

Colette Galli
