Subject: Outdoor advertising should be G rated
Date: Friday, 21 June 2013 7:15:03 PM

I am writing regarding the proposal that outdoor advertising should be G rated! Some of the billboards I have seen definately sexualise small children when they should be protected from this stuff not have it thrown in their faces as we are driving around in our cars. Please put my name down as a person who is for G rated advertising and not the sexual exploitation of children.

Thank you
Lee Gray
