---

I would like to have my say on outdoor advertising, I believe that our public spaces should be suitable for children's viewing. Our children are already having to grow up too quickly with all the rubbish that pops up on TV. At least the TV can be turned off. Please keep our public spaces suitable for viewing by children & by adults in our society who still have some morals and find some advertising offensive.  
Thank you.

--

May God richly bless you.
