Subject: Pls Keep Outdoor advertising G rated.

Hi,

I am writing to raise my concern of outdoor advertising on big billboards promoting the sex industry. I would like to think that Queensland can keep up a clean family image for their state if not the whole of Australia.

A billboard for a strip club has just gone up across the road from the Enoggera Army Barracks. It needs to be stripped.

We have had enough of the sex industry grooming our communities for their own gain and to the detriment of our men, women and children.

Concerned Queenslander.
