---

I would like to add my view to the discussion of inappropriate billboards and I would like to see some action in this area.

I am offended by explicit billboards - and I am a mature aged female - and would like to see them G-rated. Billboards can be very distracting while driving and I dont want to view this form of advertising and I do not want our children and grandchildren exposed to explicit or suggestive photographs or images.

I believe there is far too much explicit advertising available in paper form, media and movies. We have been swamped by pornographic material and this is a cause for great concern for families in the society we live in. Men are particularly vulnerable and this will then lead to family breakdowns and children left fatherless. You only have to look at the statistics to see that this is correct.

I believe public space should be G rated.

regards
