To whom it may concern, if there is to be any changes to rules regarding outdoor advertising, please register my vote in favour of all outdoor advertising to be suitable for the eyes of children i.e. G rated. I'm dismayed at the push for children to grow up too quickly forced upon them by our liberal society. Let's hold children in high respect and give them a childhood, free of so much pressure to be anything other than what they already are and have.

Thank-you,
Elly McIntyre.
