TO WHOM IT MAY CONCERN

I am very much annoyed that right outside the Enoggera Army Barracks a large billboard advertising a female strip joint has just gone up. The timing is absolutely OFF and I hope the Chief of Army who has recently told Aussie troops who do not want to treat women respectfully to GET OUT OF THE ARMY takes umbrage at this poor advertising decision. What sort of message is thiis disgraceful and distasteful billboard sending our troops, our women, our children, and our community in general?
