Dear Sir:

I am writing to express my support of Robbie Katter MP, Termination of Pregnancy (Live Births) Amendment Bill 2024 into the Queensland Parliament.

I am appalled at the fact that this has to even be considered. Any unborn child possesses already all the human dignity, and the fact that some of these babies have survived the abortion procedure indicate that they have great capacity to survive much of what will come to them later on in life.

Please take this letter into consideration and do whatever you can to promote this amendment to the Bill. I pray for your work.

Yours faithfully,

Dr. X. Ovalle
