I fully support the Termination of Pregnancy (Live Births) Amendment Bill. I agree with the stated objective of the Bill to enshrine in legislation the protections for babies born as a result of a termination of pregnancy procedure. The Bill is intended to remove any doubt that babies born in these circumstances are entitled to the same degree of medical care and attention as a baby born in any other way. "It protects right to life; the protection from torture and cruel, inhuman or degrading treatment; the protection of families and children; and right to health services."
