Not only is it abhorrent that this country allows mothers to kill their children, but now the state acts in communist ideology where the right to life is completely rejected. It is disgusting that adoption laws are so restrictive because of supposed safety considerations for the child, and yet the state is happy to condone the murder of innocent children. Every child, no matter the state of the mother, family or social situation deserves to live and receive care on par with a wanted child. This bill, the Termination of Pregnancy (Live Births) Amendment Bill 2024 does not go far enough but at least aims to protect every child born alive, the amendments should be passed and further protections ensured to all Australians, starting from the moment of conception. There is a God, His name is Jesus and you are accountable to Him, choose carefully how you govern. Thank you.
