### Submitter Comments:

This is a bleak time to be pro-life. The holistic vision of human life from conception to natural death as being invested with dignity and worthy of respect is being steadily undermined by legislatures. The defence of innocent human life is a good cause. We know, as previous generations did not, that human life is a continuum from conception to natural death. And yet the dispiriting reality is that we have framed the rights of women in terms of the right to kill a foetus. This is prenatal infanticide. Please protect life at this most vulnerable time.
