Submitter Comments:

Taking a life of what will be a living breathing human being is so wrong in all aspects of life and what we as humanity should be doing to protect the innocent, those who do not have the "right" or say to live. Not to mention a baby that has been born and is just left to die. How evil has this World of ours become to even consider let alone allow such atrocities to happen and be passed in our Laws today. Thank God for people who are willing to stand up and fight for the right for all to have a chance to enjoy this beautiful World (Nature) that we live in. My heart goes out to those Doctors and Nurses who have to "By Law" go against their moral law and watch this beautiful fully formed baby due in front of them, then to walk out of the hospital and try to forget what has just transpired. Please allow this Bill to be passed. We who are privileged to have life, do not have the right to take another's life.
