I fully support Robbie Katter's bill to amend the abortion to birth bill. I find it incomprehensible that babies born alive after a late term abortion are not cared for and treated the same as another newborn. I understand in most cases they are left to die alone in a room and then treated as medical waste. This is appalling and inhumane. I have seen vets treat baby animals better. Another baby born alive normally but not wanted by the mother have a legislative right to full medical care. So should babies born alive after an abortion. This Bill compels medical practitioners to provide such care. I welcome the introduction of this Bill and totally support it.
