Submitter Comments:

Life is sacred and given by God. All life is of value and the role of a doctor is to preserve life and not to destroy it. A baby is defenceless and in need of protection and care and not harm and destruction. It is tantamount to murder to be in a position to save a life and have all the skills to do so and to then allow that person (which is what a baby is!) to die. It is unconscionable. Please reconsider this abominable course. Who knows but that the child you save might then, one day, save you!
