Submitter Comments:

I ask that you follow the lead of some Australian states and 'enshrine in legislation the protections for babies born as a result of a termination of pregnancy procedure And allow these babies to be entitled to the same degree of medical care and attention as a baby born in any other way.' It is shocking that Queensland is lagging behind in the care of these babies. Can you imagine your own new born child or grandchild being left to die? Instead of being given tender loving care. That is what is happening now. Please change the law to prevent it happening. Thank you.
