Submitter Comments:

I find late-term abortion, or any abortion of a life at any stage abhorrent in reality, and can only assume that the current Law supporting late-term abortions was passed in ignorance. I support the proposed Bill by KAP to stop the barbaric practices of inhumanity sanctioned under the Labor government. This proposed Bill from the KAP must be passed."The former health minister and now Premier assured the parliament that late-term abortion would not increase under the then new laws introducing abortion up to birth...This has proven to be horribly incorrect. Queensland lags behind other jurisdictions in ensuring these babies – these humans, these Queenslanders – are properly cared for and treated. It protects right to life; the protection from torture and cruel, inhuman or degrading treatment; the protection of families and children; and right to health services"When infertile women are crying out for a baby, how can these terminations be sanctioned?? "Leaving them (terminated babies) alone to die in a room by themselves or in a medical waste bin or wherever should be something that should not even be contemplated." An humane solution MUST be achieved with strong leaders who have a moral compass. This Bill might be amended to include that women seeking abortions at any stage should have to first listen to their baby's foetal heartbeat as well as undergo mandatory counselling before ending a pregnancy,Before voting on this Bill, I believe all parties involved should watch with horror the practice of leaving live late-term abortion babies to die. God forgive you.
