Submission : Termination of Pregnancy Live Births Amendment Bill 2024

9th May 2024

All New Borns Deserve Best Practice Medical Care
regardless of the Methods used to bring new life into
this world.

Natural Law necessitates that all our new born babies
deserve best medical care to help them survive and live.
We don't have the right to kill our own babies without
good reason.

In terms of a Human Rights Perspective.....

- **Article 3 of the Universal Declaration of Human Rights** asserts the inherent right to life and states that “everyone has the right to life, liberty, and security of person.” Similarly, **Article 24 of the Convention on the Rights of the Child** recognises the right of every child to the highest attainable standard of health and calls for the provision of necessary medical care and attention to newborns.
- **International Covenant on Economic, Social, and Cultural Rights, in Article 12**, emphasises the right of everyone to enjoy the highest attainable standard of physical and mental health. This includes the provision of medical care and necessary social services to ensure the well-being of individuals, including newborns born as a result of termination procedures.
