Public Submission by Mark Vegar.

I urge the committee to enable the preservation of life and for health professionals to do their job for every Queenslander.
Hi, I'm Mark and reside in Brisbane and am a QA Food Technologist
It is essential to give babies born as a result of termination the same care as other human beings and dignity of life because we live in a society founded upon laws and the dignity of fellow human beings.
We were all just as vulnerable and are grateful for the chance at life, this should be extended to all.
It would be saying that not all life is equally valuable and would prevent health professionals from providing care to the most vulnerable and so enable them to do their job of protecting life.

Sincerely, Mark Vegar
