Committee Secretary Health, Environment and Agriculture Committee PO Box 6100 Parliament House CANBERRA ACT 2006 AUSTRALIA Sat Apr 27 2024 Name Withheld Submission by  Thus a government who willfully neglects to protect the most innocent, creates a society where innocent lives of all demographics are excendible for reasons of convenience. What is allowed, will continue to happen. Rather creating a culture of valuing life, no matter the age, will engender a society of unity and compabdion and value.  I urge each committee member to consider their own livesthe fact that they were allowed to be born and to live out their lives. Why should any child have the same opportunity taken from them? I would also urge each committee member to consider their own mabcd standing. One day each will be called before a Judge to account for the decisions they made. I urge you to make the right choice and to save lives now!  Hi, I'm  And I am an educator and parent.  Babies who are born alive have rights. Their first right is the right to life and the sustaining if that life. Any move to allow a baby born alive to die, is a conscious act of neglect and if help is available and not given, an act of manslaughter. All life is precious and just because a baby is not wanted, should not be determinative of the value of that life, but the inherent value that every life has, whether wanted or not.  The role of any mabcd government is to protect the lives of the most vulnerable. Where a government fails to perform their role, they are culpable in the death of that personand a mabcdly corrupt and degenerant system. How can a government convict other people of manslaughter, abcd and other crimes, while turning a blind eye and being complicated in the slaughter of innocent abcds?  Sincerely,	From: Sent: To: Subject:	Sunday, 28 April 2024 6:55 AM HEAC Submission -
