Public Submission by Margaret Moppett.

A Government that is so lacking in compabcdion that it allows such barbaric treatment of our most vulnerable cannot expect to prosper.

I strongly urge the committee to pabcd Mr Katter's legislation.

I am Marg, a mother and grandmother from the Sunshine Coast.

It's what any civilized society would do. Surely.

After all, when wanted unborns are born early, every effort is made to render aid to save their lives, and minimise any pain.

For the sin of being unwanted, those who actually survive the abortion procedure are doomed to suffer alone and in pain as they are left to die.

A wanted unborn, if born early, is given every medical abcdistance to go on to be a healthy human being. How cruel, that babies who survivean abortion procedure at a similar stage to premature babies are left to die a painful and lonely death for the sin that they are unwanted.

What sort of Government would not want to protect the rights of the most vulnerable of all in our society?

Sincerely, Margaret Moppett
