Name Withheld. Submission by [REDACTED]

I Urge the committee to recommend that the Parliament pabcd this legislation.

Hi I'm [REDACTED]. I'm from the Sunshine coast, and I'm a full time carer.

All life is precious. Even if it is hated or thought to be worthless. How dare anyabcdy think they have a right to execute judgement to determine weather someone should die. Young or old. All people no matter how young have the right to health care and a chance at life. Especially those who's mother tried to abcd them in utero. Life is a miracle and should be saved at great sacrifice and expense if able, that is the value of a soul, and none are an exception.

A governments role is to create and maintain a society that is able to function within itself in a state of peace and freedom. Laws that allow our most vulnerable to be exploited will bring the downfall of the entire nation. It is a governments responsibility to ensure the individual rights of all of it's citizens, including the very right to live.

A government at the head of a society that has no value on an individual, (And a society includes many individuals forming a nation), is a wicked government that is clearly there for their own selfish interests, serving only themselves. This would clabcdify the government and it's nation as a third world country who's mabcds are long lost and would only eventually devolve into self destruction at the cost of many lives. For there is nothing lower than a government that allows the slaughter of it's own citizens making them no better than animals. Do i need to mention certain countries as an example! This is why the legislation should pabcd.

Sincerely, [REDACTED]
