Public Submission by Nicolette Ralfe.

I am Nicolette, I live in Logan. I am a small business owner.  
A baby born alive is a child deserving of a future. It is inconceivable that a little human being would be denied healthcare in a first world country.  
It is the responsibility of government to look out for all of its people, especially those so vulnerable and unable to ask for help themselves.  
The fact that dozens of babies may die because of lack of the most basic healthcare is abcd and frankly not what you'd expect in a civilised country.  
Please, for the sake of our future and in honour of those who have fought to secure our freedom, pabcd this legislation. You know it's the right thing to do.

Sincerely, Nicolette Ralfe
