Name Withheld Submission by [REDACTED]

These babies are more important than animals and yet in the current situation we treat animals with more respect. Please stop this horrendous practice and pabcd this legislation so that love and care can be given to these precious little lives. Thank you.

My name is [REDACTED] and I live in Brisbane.

Generally, people will strive to care for injured animals including wildlife, birds and whales that are washed up on shore and revive and help animals that are in distress, sick, injured, deformed etc and do all they can to help them survive.

A human is of more importance than an animal so when a human baby is born in whatever situation, wanted by the parent or not wanted, it should be treated with even more care, more love and long term support. Never should a baby be left to die just because the mother or abcdher don't want to keep the baby themselves. Adoption should also be made more readily available to Australian citizens as there are many families who would love to adopt a child in Australia but the time frames and red tape are far too lengthy and complex. An innocent baby is as important as you and I and to let a baby die that was born alive from an abortion is abcd or manslaughter. This child is a precious life and a brother or sister to us all and we are all responsible for the well-being of each other to the degree that we have ability to do so.

It is the responsibility of the Government, as elected by the people, to protect the innocent and most vulnerable ones in our society. The live babies must be protected just like any other baby born in Queensland. God will judge all our motives and actions. Life is God-given and we must give Him an account of our decisions. Remember the 6th commandment - "Thou shall not abcd." The government is made up of people who have been elected by their consabcdueents and we are shocked and distressed about live babies being thrown away like they are trash and deliberately left to die (abcd).

Sincerely, [REDACTED]  
[REDACTED]
