If the Government fails to pass this legislation, more and more babies born alive by abortion will suffer without any form of care. As access to Abortion has increased, there are increasing numbers of babies born alive.

I urge the committee to recommend that the Parliament pass this legislation. More and more lives will suffer and go without the basic human healthcare rights. It is our responsibility to be their voice.

Hi, my name is [REDACTED], I live in Brisbane and work as a Registered Midwife.

It is essential to provide healthcare to babies who are born alive during an abortion as they should be afforded the same basic human right to healthcare and life as any other baby, child or adult is afforded. The babies born alive by abortion should not suffer because of the decision made to terminate the pregnancy.

It is the most fundamental responsibility of the Government to protect the most vulnerable among us. These babies are not able to speak for themselves, therefore we must be the voice for them in being granted basic healthcare rights.

Sincerely, [REDACTED]
