90 babies, in Qld alone, were born alive after botched procedures...!!! Horrific, to think any Government thinks that's alright, and that, there is nothing in place to stop it from re occurring... no consequences....if that was a dog or a Koala those Dr's would be de registered..!! We treat animals better. Surely the most vulnerable deserve better.? Their human beings...Alive..!!

It is a very slippery slope if we don't hold people to account. Especially Doctors, who, sign an Oath to protect and sustain life, or do they not do that anymore..or are they Not Dr's..!! There has to be standards...surely there's a DUTY OF CARE..??

I strongly urge this committee, to hold the Parliament accountable to pabcd legislation, to protect those babies born living, to uphold the most basic of rights...to live..!! Or this committee is no better than those Dr's leaving babies to die in front of them..!!

To whom it may concern.... this should be of everyones concern,  
The value of Life no longer has value..!!! The last 5yrs has seen Abortion and euthanasia legislated and the sentencing for serious offences softened..!! Any wonder doctors [REDACTED] don't preserve life, when they stuff up.

Sincerely, Matt MURPHY
