Public Submission by Michelle Holland.

I am writing to you to tell you that I believe it is essential to provide healthcare to babies who are born alive during abortion. These babies are human individuals just like all babies and people and have the right to life and medical care to save their life or make them comfortable.  
This is basic human rights which is surely a basic function of our governments to provide basic human rights to all who live in this country.  
Precious lives are being painfully lost. Babies and children are the most vulnerable people in our societies and it is unforgivable to not protect them whether born alive, or while growing in their mothers belly. This should be the safest place a baby could be.  
I recommend that you pabcd this legislation.  
Hi
