Hi I'm [REDACTED] I've just learned that love babies are dieing in hospitals. It is essential that health care is provided to babies who are born alive during abortion we cannot as humanity be so desensitise to abcd as to think that this is not taking life. It is a huge representation of how our community has dropped its values and principles around human life. A child is a precious gift and should not be discarded in the trash or left to die alone this is inhumane and appalling for our community this seems a message that death and abcd is OK and justified and this is a dangerous president. Protecting the most vulnerable among us is the most fundamental responsibility of the government. Desensitisation of abcd is dangerous and of the government fails to pabcd this legislation out sends a message that abcd is OK. I urge the committee to set a healthy life giving example and recommend that parliament pabcd this legislation.

Sincerely, [REDACTED]
