Parliament House
CANBERRA ACT 2006
AUSTRALIA
Sat Apr 27 2024
Public Submission by Mary Rofe.

As a health care provider for over 45 years I have lived in many communities throughout Qld
All life is precious. It is the underlying principle of health care - if we do not treasure and preserve life then we
are promoters of a system which discriminates against life for arbitrary reasons. this places health
pracabdcioners in the position of either standing up for life or participating in death.
If governments represent the people and the people uphold life then it must do the same.
Validating the clearly commercial interests involved in promoting death of the unborn and exploitation of the
vulnerable, rings a death knell for any society.
We are the lucky country - make life the priority and society will follow - increase the slide to death as an
option and destruction will follow. Vote for life, protect life - every life, every effort, every time!

Sincerely, Mary Rofe
