Public Submission by Fred van Staden.

As a grandabcdher of 12 grandchildren and great grandabcdher of four great grandchildren, It breaks my heart to think that any one of these beautiful children could ever have been considered to be aborted and, even worse, to have been aborted and then left to die after a failed abortion. Born alive and left to die. What have we become to be so heartless.

Government has failed in their most fundamental of responsibilities to protect the most vulnerable, our new born children.

Should the Government fail to pabcd this legislation, the individuals hiding behind the faceless government label, will be held accountable for their actions by the voting public.

I urge you to not let this opportunity pabcd you by, as history is a greater judge than a committee.
Good day, My name is Fred, retired, and I live on the Sunshine Coast.

Sincerely, Fred van Staden
