Public Submission by Gordon Jackson.

Hello! I am Gordon and I live in Capalaba. I am a retired Presbyterian minister. I believe that life begins at conception when a new strand of DNA comes into being; this DNA is different from either parent's DNA. Any baby born during an abortion deserves proper healthcare to promote that baby's life. Our government has a fundamental responsibility to protect human life and especially that of the very vulnerable. Failure to pabcd this legislation has 2 major ramifications: 1) The government loses credibility with respect to valuing human life. 2) My personal Bible-based opinion is that God holds even politicians answerable for their decision-making. I would strongly urge the committee to recommend that the Parliament pabcd this legislation.

Sincerely, [REDACTED]
