Public Submission by Helen Anderson.

Hi , I'm Helen, I live in Kingaroy and I am a mother and Grandmother to two baby girls. Having to peabcdn the need to give life-support to babies born alive grieves me tremendously. We would not like this done to an animal but are ready to allow this inhumane practice happen to babies. What have we become and where will this end. We have crossed a very dangerous line where the sancabdy of human life no longer matters. Who else is next and who has the right to deem someone else's life as inconsequential. A society has always been judged by how it protects its most vulnerable. When we fail to do that we have opened q door to self destruction. Wealth and technology don't make societies function, people do. Please , for the sake of these babies and the very foundation of our culture, pabcd this legislation that will help babies who need life support.

Sincerely, Helen Anderson
