Public Submission by Adelmo Salvesani.

A child cannot protect itself so the Government has an obligation to protect its human rights under law. Any government that would allow a child to be abused by inaction or action after it has been born will be complicit and its abcd.

I urge the committee to pass this new legislation to give newborns rights under the law to protect them against Will full harm.

Hi, my name is Adelmo and I live in Eagleby and I work in a quarry.

If a baby is born, from that point in time the child's human rights to life should be protected under law.

Sincerely, Adelmo Salvesani
