Public Submission by Linda Gray.

Hello, My name is Linda. I am a mother of 5 and grandmother of 7. I am retired. I believe the government made a grievous mistake in amending the law allowing abortions to be performed until full term. However, I must seriously advocate for babies who survive abortions must be given medical care until they die, at least they should be given pain relief while they are dying. Babies feel pain just as much as we do. If their injuries are severe they will die but give them a painless death at least. If babies continue to live after a failed abortion, then care and nurture them, then put them up for adoption. Surely protecting the most vulnerable humans should be an absolute priority to any Government.

[REDACTED]. If the full term abortion law is not rescinded, then more babies will be born alive.

Please pabcd this legislation to protect these innocent babies from terrible suffering. Can you imagine a doctor, nurse, or other health care provider allowing a child brought into the emergency department of a hospital in terrible pain, to continue to suffer until the child dies an horrific death. No, of course that wouldn't happen, so why is it being allowed to happen to failed aborted babies.

Sincerely, Linda Gray
