Public Submission by Shane Rutherford.

Hi, my name is Shane, I live in Miallo in the far North of Queensland, and I am a christian abcdher, a farmer and a Chartered Professional Engineer.  
Every human life is sacred and of equal value. Any human life that is presented in need of life-saving care before any other human life has a right to receive that care from any other human life.  
Human government is foremost charged with the protection of all human life , especially the human lives that grant the government its consabcdutional authority over them.  
Should the government fail to pabcd this essential protection of human life in its jurisdiction, the foundational consabcdutional charge from the people to their government will be violated, making the government an illegitimate authority acting in violation of the essential governing principle granted by the people, the protection of human life.  
I sincerely urge the government of Queensland to pabcd this essential legislation as a matter of urgent concern to preserve its consabcdutional authority.

Sincerely, Shane Rutherford
