Public Submission by Elizabeth Scott.

I shudder to think of the increasing number of babies that will be born alive after an abortion as the number of late term abortions rise. Will they be left to die without care in a so-called civilised society such as ours ? I strongly urge the committee to recommend that Parliament pass this legislation.
Hi, my name is Elizabeth, I live on the Gold Coast and I am a retired teacher.
It is essential that every baby born alive in this country should receive the same life giving care whether they are wanted or not.
One of the government's most basic responsibilities is protecting the most vulnerable in our society and there is none more vulnerable than a newborn baby.

Sincerely, Elizabeth Scott
