Public Submission by Alan Baker.

Hi, I am Alan Baker. I live in Brisbane and I am a financial planner by profession. You would no doubt appreciate the fact that the Termination of Pregnancy (Live Births) Amendment Bill 2024 does NOT take away any rights from the mother of the child. If a live child is born alive after a termination of pregnancy, and subsequently dies because of withholding of medical care, that is infanticide, NOT abortion. this is a fundamental human rights issue. Once born, a baby has the same rights under the law as any other Australian citizen.  
Protecting the most vulnerable among us is the most important responsibility of government. If the Government fails to pass Robbie Katter's private member's Bill, it will be an indictment for all time against the politicians who cannot bring themselves to do the right thing. I strongly urge the Committee to recommend that Parliament pass this Bill to protect the rising generations of Australian citizens.

Sincerely, Alan Baker
