CANBERRA ACT 2006  
AUSTRALIA  
Wed May 01 2024  
Public Submission by Mellisa Claffey.

Hi, I'm mellisa. I live in Ipswich.  
It is the right of the unborn/born baby to have the opportunity to survive, this was not at choice for their life to be terminated. The medical staff in field should have the obligations to provide medical care to all living humans. It is not fair or reasonable to let a dying born baby suffer when care can and should be provided. To provide medical care to all and every human living being.  
Death of life. When life has come into this world and the medical staff have chosen not to provide care for babies being born alive results in abcd.  
Please pabcd this legislation to allow all babies born weather upon termination or born willing by mother to provide medical care for survival. Do not let the helpless babies suffer, it was not at choice for these babies to loose their life and choices to be made on their half. These babies have right to live.

Sincerely, Mellisa Claffey
